The Future of Power

Joseph S. Nye Jr.

The Future of Power Joseph S. Nye Jr.

In the era of Kennedy and Khrushchev, power was expressed in terms of nuclear missiles, industrial capacity, numbers of men under arms, and tanks lined up ready to cross the plains of Eastern Europe. By 2010, none of these factors confer power in the same way: industrial capacity seems an almost Victorian virtue, and cyber threats are wielded by non-state actors. Politics changed, and the nature of power—defined as the ability to affect others to obtain the outcomes you want—had changed dramatically. Power is not static; its story is of shifts and innovations, technologies and relationships.

Joseph Nye is a long-time analyst of power and a hands-on practitioner in government. Many of his ideas have been at the heart of recent debates over the role America should play in the world: his concept of "soft power" has been adopted by leaders from Britain to China; "smart power" has been adopted as the bumper-sticker for the Obama Administration's foreign policy. This book is the summation of his work, as relevant to general readers as to foreign policy specialists. It is a vivid narrative that delves behind the elusive faces of power to discover its enduring nature in the cyber age.

From reader reviews:

Victor Green:

This The Future of Power book is simply not ordinary book, you have after that it the world is in your hands. The benefit you will get by reading this book is information inside this publication incredible fresh, you will get info which is getting deeper an individual read a lot of information you will get. This The Future of Power without we realize teach the one who reading through it become critical in contemplating and analyzing. Don't possibly be worry The Future of Power can bring when you are and not make your handbag space or bookshelves' become full because you can have it in your lovely laptop even cell phone. This The Future of Power having good arrangement in word in addition to layout, so you will not really feel uninterested in reading.

Cheryl Kirkland:

People live in this new day time of lifestyle always make an effort to and must have the spare time or they will get lot of stress from both day to day life and work. So , once we ask do people have time, we will say absolutely sure. People is human not really a robot. Then we request again, what kind of activity are there when the spare time coming to a person of course your answer will certainly unlimited right. Then ever try this one, reading books. It can be your alternative with spending your spare time, typically the book you have read is usually The Future of Power.

Timothy Rhine:

Your reading sixth sense will not betray an individual, why because this The Future of Power publication written by well-known writer we are excited for well how to make book which can be understand by anyone who read the book. Written within good manner for you, leaking every ideas and writing skill only for eliminate your own personal hunger then you still doubt The Future of Power as good book not merely by the cover but also with the content. This is one reserve that can break don't determine book by its protect, so do you still needing a different sixth sense to pick this specific!? Oh come on your reading through sixth sense already said so why you have to listening to yet another sixth sense.

Luz Cox:

Do you like reading a reserve? Confuse to looking for your preferred book? Or your book has been rare? Why so many query for the book? But any kind of people feel that they enjoy intended for reading. Some people likes looking at, not only science book but also novel and The Future of Power or perhaps others sources were given knowledge for you. After you know how the truly amazing a book, you feel need to read more and more. Science publication was created for teacher or students especially. Those publications are helping them to include their knowledge. In additional case, beside science reserve, any other book likes The Future of Power to make your spare time a lot more colorful. Many types of book like here.
