Inspired by the "The Big Challenge" series that aired in 2007 on kids and obesity, and the Surgeon General's report that advocates obesity is more prevalent and pervasive among Blacks and Hispanics; King presented a pedometer challenge to her granddaughter in 2008, who was 8 years old at the time. Notable results were observed. ? Her desire for outside activities increased immensely. ? Attempting to reach her daily goal of 12k steps became additive. ? King shares frankly concerning her and her families battle with obesity and the associated complications of Type II diabetics, heart disease, sleep apnea, kidney failure, and hypertension to name a few. As a writer, author, she tells her irrefutable testimony of how she attributes the aid of pedometer walking and alternative food selections to her being able to ward off Type II Diabetes thus far. She also spotlights manufacturers in their supportive and not so supportive efforts. You know... after the victory. Then I was reminded that it's during the struggles of life is when encouragement, comfort, and strength is needed the most, whether you're the one that's receiving it or giving it." [Excerpt from Introduction.] Wonderfully illustrated in colorful photo's of food, charts, graphs and alternative food recipes. "Let's Get Steppin!" offers an innovative, identifiable and plain talk method to a targeted segment of America concerning the debilitating disease of Obesity.
