"The 4-hour work week" is one of the most motivational books ever and it demonstrates a truly "out of the box" approach. What lies on the grass root level, is a solid concept beautifully expressed by Tim Ferris that wealth is not money alone, it is also time and money. The ones combining the forceful elements are truly rich among the modern, ever changing, ever growing society. The book teaches us how we can and should live life with freedom and that money can't buy happiness! Ok, wait, maybe it can nowadays. But that is what the book talks about, the happiness driven from consuming things from money, can also be earned without money, but with the mobility and time. A production of Timothy Ferris, this book "4 Hour Work Week", has been translated in over 35 languages worldwide and is one of the best sold books of all time.

This book served multiple purposes, including:

- cutting across the tradition routine of working 9 to 5
- understanding the New Rich
- entrepreneurship and its associated risk
- benefitting from varied currencies

And more that you will come across as you continue reading. Another major approach was convincing your boss to let you work at home. Explaining him how much more productive you can be if you work at home than at the office. Not just making him allow you to work at home, but also make him value your work and consider you among the top employees.
