The New Cold-Molded Boatbuilding: From Lofting to Launching Reuel Parker

This features a boatbuilding process which combines strength, beauty, and the workability of wood, with the low-maintenance characteristics of epoxy. Ideally suited to the amateur builder wanting a good, solid cruising boat, this is a complete soup-to-nuts presentation of the cold-molding process, with chapters detailing every facet of construction--from choosing a design and setting-up, through engine installation and wiring, to launching and sea trials. Parker has streamlined the cold-molding process to produce economical sturdy boats.
