FIDIC Quick Reference Guide: Yellow Book Brian Barr, Leo Grutters

The FIDIC Handbook Series will form a series of low cost guides to all FIDIC Contract administrators. They will ensure that appropriate timely actions are taken during the course of a construction contract in order to improve communication, stimulate better administration and highlight accountability at an early stage, thereby improving the working relationships between the parties and reducing the potential for disputes. The guidelines suggest actions for each party to take, stipulate the time to take such action, provide relevant comments and includes model letters where appropriate for each Sub-Clause within the Contract. This book, FIDIC Handbook - Yellow, provides commentary on the Yellow Book: FIDIC Conditions Of Contract For Plant and Design-Build which is recommended for the provision of electrical and/or mechanical plant and for building and engineering works if most (or all) of the works are to be designed by (or on behalf of) the Contractor.
