## Protein Phosphorylation in Plants (Proceedings of the Phytochemical Society of Europe)

Protein phosphorylation and dephosphorylation play key roles in many aspects of plant growth, including control of cell division, pathways of carbon and nitrogen metabolism, and signal transduction. This book is the first attempt to cover all aspects of this rapidly expanding area of research in a single volume. It includes work from key groups at the forefront of research in this area, with studies at the biochemical, molecular, and cell biological levels.
