The War State: The Cold War Origins Of The Military-Industrial Complex And The Power Elite, 1945-1963 Michael Swanson

Today when you factor in the interest on the national debt from past wars and total defense expenditures the United States spends almost 40% of its federal budget on the military. It accounts for over 46% of total world arms spending.

Before World War II it spent almost nothing on defense and hardly anyone paid any income taxes. You can't have big wars without big government. Such big expenditures are now threatening to harm the national economy. How did this situation come to be?

In this book you'll learn how in the critical 20 years after World War II the United States changed from being a continental democratic republic to a global imperial superpower. Since then nothing has ever been the same again. In this book you will discover this secret history of the United States that formed the basis of the world we live in today.
