Terrain Modelling (Modelling Masterclass) Richard Windrow

This title helps modellers who wish to display the results of their efforts to the best advantage in a diorama. This book provides detailed information on how to create many different types of terrain; the paints, glues, tools and materials that will be of help to the modeller; and how these can be obtained both in Europe and the USA. Illustrated with some 200 photographs and written by a master of diorama modelling with a lifetime's experience, this book provides the essential and invaluable guide to the materials and techniques needed to create top quality terrain for anywhere from Ancient Rome to the Western Front.
