Beliefs: Pathways to health and well-being Robert Dilts, Tim Hallbom, Suzi Smith

BELIEFS are the foundation of everyone's personal outcomes. This second edition of *Beliefs: Pathways to Health & Well-Being* includes new and updated material and offers leading edge technologies that rapidly and effectively identify and remodel limiting beliefs. It teaches you powerful processes for change and demonstrates how to identify and change beliefs using scripts from personal change work undertaken with individuals in workshops. These processes include reimprinting, conflict integration, belief/reality strategies, visualization and criteria identification. You will learn the latest methods to change beliefs which support unhealthy habits such as smoking, overeating and drug use; change the thinking processes that create phobias and unreasonable fears; retrain your immune system to eliminate allergies and deal optimally with cancer, AIDS and other diseases; and learn strategies to transform "unhealthy" beliefs into lifelong constructs of wellness.
