Cybersecurity Leadership: Powering the Modern Organization Mansur Hasib

An essential book for the modern technology driven organization narrated by the author

Authored by the only cybersecurity and healthcare IT leader in the world with 12 years' experience as Chief Information Officer, a Doctor of Science in the field, and the prestigious CISSP, PMP, and CPHIMS certifications.

Managing cybersecurity requires a multi-disciplinary holistic business approach. Many of the current cybersecurity approaches in organizations and most books are based on an outdated 1991 model of cybersecurity - focused solely on technology solutions. This book provides the 2014 model and shows why leadership engagement of people within an organization is critical for success. Culture development through leadership is essential because culture governs behavior. Apply the time tested principles explained in this book for success in any organization.

Today cybersecurity strategy is the same as information technology strategy. Cybersecurity drives the mission of the modern organization. Done right it can be a hallmark of distinction and a source of productivity and innovation in an organization. Failure to lead cybersecurity can easily lead to business failure. This book is an essential read for CIOs, CISOs, or any organizational business leader or student who wishes to understand how to build successful organizations. No prior background in cybersecurity or technology is required to understand this book.

In addition to 30 years of real world experience implementing organizational cybersecurity strategy, the author teaches cybersecurity to graduate students and executives at several US National Centers of Academic Excellence. The author is an opinion writer and conference speaker on cybersecurity, healthcare and leadership issues and is frequently quoted and cited in the media.
