This book focuses on the major issues that will affect the airline industry in this new millennium. It tells of an industry working on low margins and of cut-throat competition resulting from 'open skies'. Among the issues discussed are:

- * the low-cost airline
- * the impact of electronic commerce
- * the debate on global airline alliances
- * privatizing state-owned airlines
- * the creation of a Trans Atlantic Common Aviation area

Most importantly, the book carefully analyzes the strategies that are needed for airlines to succeed in the twenty-first century. This is essential reading for anyone interested in aviation.
