Chemical Information Mining: Facilitating Literature-Based Discovery

Chemical Information Mining: Facilitating Literature-Based Discovery

The First Book to Describe the Technical and Practical Elements of Chemical Text Mining

Explores the development of chemical structure extraction capabilities and how to incorporate these technologies in daily research work

For scientific researchers, finding too much information on a subject, not finding enough information, or not being able to access full text documents often costs them time, money, and quality. Addressing these concerns, **Chemical Information Mining: Facilitating Literature-Based Discovery** presents strategic ideas for properly selecting and successfully using the best text mining tools for scientific research.

Links chemical and biological entities at the heart of life science research

The book focuses on information extraction issues, highlights available solutions, and underscores the value of these solutions to academic and commercial scientists. After introducing the drivers behind chemical text mining, it discusses chemical semantics. The contributors describe the tools that identify and convert chemical names and images to structure-searchable information. They also explain natural language processing, name entity recognition concepts, and semantic web technologies. Following a section on current trends in the field, the book looks at where information mining approaches fit into the research needs within the life sciences.

Shaping the future of scientific information and knowledge management

By building knowledge and competency in the growing area of literature-based discovery, this book shows how text mining of the chemical literature can increase drug discovery opportunities and enhance life science research.

From reader reviews:

Cathy Thomas:

Why don't make it to become your habit? Right now, try to prepare your time to do the important behave, like looking for your favorite publication and reading a guide. Beside you can solve your long lasting problem; you can add your knowledge by the publication entitled Chemical Information Mining: Facilitating Literature-Based Discovery. Try to make the book Chemical Information Mining: Facilitating Literature-Based Discovery as your friend. It means that it can to be your friend when you sense alone and beside those of course make you smarter than previously. Yeah, it is very fortunated for you personally. The book makes you much more confidence because you can know anything by the book. So , we should make new experience and also knowledge with this book.

Wesley McFarland:

Information is provisions for individuals to get better life, information currently can get by anyone with everywhere. The information can be a information or any news even a huge concern. What people must be consider while those information which is within the former life are hard to be find than now's taking seriously which one works to believe or which one the resource are convinced. If you receive the unstable resource then you have it as your main information there will be huge disadvantage for you. All of those possibilities will not happen with you if you take Chemical Information Mining: Facilitating Literature-Based Discovery as the daily resource information.

James Cooper:

Reading can called mind hangout, why? Because while you are reading a book specially book entitled Chemical Information Mining: Facilitating Literature-Based Discovery your thoughts will drift away trough every dimension, wandering in most aspect that maybe not known for but surely might be your mind friends. Imaging each and every word written in a reserve then become one application form conclusion and explanation this maybe you never get before. The Chemical Information Mining: Facilitating Literature-Based Discovery giving you another experience more than blown away your head but also giving you useful details for your better life with this era. So now let us explain to you the relaxing pattern is your body and mind is going to be pleased when you are finished studying it, like winning an activity. Do you want to try this extraordinary wasting spare time activity?

Edward Sullivan:

Do you like reading a publication? Confuse to looking for your favorite book? Or your book had been rare? Why so many concern for the book? But just about any people feel that they enjoy with regard to reading. Some people likes looking at, not only science book but also novel and Chemical Information Mining: Facilitating Literature-Based Discovery or perhaps others sources were given expertise for you. After you know how the truly great a book, you feel wish to read more and more. Science guide was created for teacher

or perhaps students especially. Those guides are helping them to add their knowledge. In additional case, beside science e-book, any other book likes Chemical Information Mining: Facilitating Literature-Based Discovery to make your spare time more colorful. Many types of book like this.
