There are both good and bad bugs from a gardening perspective, but unless you can identify them, you can't determine which is which. Bugs and Slugs is the perfect pocket-sized, folding guide for the nature enthusiast. This beautifully illustrated guide highlights over 140 familiar species of insects, spiders and invertebrates. Created and printed in the USA and updated in 2012 with a new cover design, this handy laminated guide is the one to keep in your pocket to answer the question, "What kind of bug is that?"
