**The Routledge Handbook of Scripts and Alphabets** George L Campbell, Christopher Moseley

*The Routledge Handbook of Scripts and Alphabets* is a unique reference to the main scripts and alphabets of the world.

*The Handbook* presents over 60 alphabets covering an enormous scope of languages; from Amharic and Chinese to Thai and Cree. Full script tables are given for every language and each entry is accompanied by a detailed overview of its historical and linguistic context.

New to this second edition:

- enhanced introduction discussing the basic principles and strategies utilized by world writing systems
- expanded to include more writing systems
- improved presentation of non-Roman scripts.
- organised into ancient, contemporary and autochthonous writing systems
- many new entries on fascinating and lesser-known writing systems

This handy resource is the ideal reference for all students and scholars of language and linguistics.

**It has been brought to our attention that in some of the copies of the book there is an alignment error in the tables for Cyrillic Scripts (pages 88-90) and Roman Scripts (pages 140-44). Please contact us at [Isabelle.Cheng@tandf.co.uk](mailto:Isabelle.Cheng@tandf.co.uk) to receive replacement copies of the corrected tables, free of charge.**

**Please accept our apologies for any inconvenience caused.**
