Unpopular Catholic Truths Oswald Sobrino

The beliefs of the Catholic Church are under constant attack. This book boldly asserts the reasonableness of several unpopular Catholic truths in the teeth of these attacks. The author presents an intelligent and assertive case for Catholic teaching on abortion, sexuality and contraception. This book does not shy away from presenting the reasons why Catholics limit the priesthood to males in an age that sees any exclusivity as unjust discrimination. In a time when many question the historical origins of the papacy, this book dares to present the New Testament evidence showing that Peter was indeed the first bishop of Rome from whom papal authority derives.
