## **Into the Looking Glass: Exploring the Worlds of Fringe** Sarah Clarke Stuart

A holistic approach to television criticism, this analytical companion to the popular show *Fringe* examines the drama's mythology and unveils its mysteries while exposing significant cultural issues addressed in each episode. With a strong basis in science fiction, *Fringe* has all of the archetypal characters and themes of the genre, from the covert mastermind and the mad scientist to dangerous advances in technology, parallel worlds, and man-made monsters. This guide explores how the show uses these elements to tap into a deeper understanding of the human experience. Less focused on individual episodes, this book is split into three parts, each discussing a broad element of the narrative experience of the first three seasons of this multilayered show.
